

AIR FUSION IQ®

Two push-buttons and a pedal are all that's required to take heat printing to the next level. The Hotronix® Air Fusion IQ® makes it all possible.

The upper platen locks down with accurate, even pressure and swings open automatically to create a heat-free workspace. A tap of the foot pedal returns the upper platen. It's that simple.

Available in a Pedestal and Table Top model.

AIR-POWERED FOR EFFORTLESS OPERATION

WORK SMARTER, NOT HARDER

The Hotronix® Air Fusion IQ® combines the simplicity of an automatic heat press with the most technologically advanced product on the market. The patented Auto Adjust Pressure™ automatically adjusts to the thickness of the item you're printing, and you can program your time to change from pre-heating to final application. With up to four time and pressure settings, it's not just possible, it's automatic.

The Fusion IQ® controller gives you insight into your business you've never had. Check your job and operator performance, make proactive data-driven decisions in real time, and interact with your press any time, any where with its web-based portal. Its stored application instructions and self-diagnostic capabilities helps you work smarter not harder.

AIR FUSION IQ® **PEDESTAL**

AIR FUSION IQ® **TABLE TOP**

PERFORMANCE

- Auto open, auto swing operation
- Adjustable pedestal stand 37"- 44"*
- Lockable casters*
- User-safe push-button/foot pedal operation
- Auto, semi-auto, or manual mode
- Touch screen control system with stylus
- Heat-free work surface
- Cast aluminum alloy frame
- Corrosion-resistant framework
- 16" x 20" Quick Change lower platen

SPECS

120 Volt • 15 Amps / 1800 Watts
240 Volt • 7.5 Amps / 1800 Watts

**Pedestal model only*

SHIPPING

40" x 48" x 58" • 245 lbs

MSRP \$5,495.00

FUSION IQ® FEATURES

- A 30% increase in screen size with a sharper, brighter resolution
